

2026 Database Coordinator Report

We continue to work with the Executive Committee, Host committee for the AG, and anyone else who can benefit from the use of data that has been collected over the years to help make it easier to disseminate and share information.

- 1) Standardize the Registration system to be used for NLS Annual Gathering, refine process, and integrate information to be used by the Host Committee.
- 2) Assist Communication Director evaluating usage of National Data
- 3) Evaluate readership of information sent out via constant contact.
- 4) Analyze usage of data to be provided to Regional Coordinators and Executive Committee.
- 5) Analyze process to track Secretariat leadership reported to NLS.
