

De Colores my Via De Cristo family

Your NLS board has had a very busy year with just a few changes. Our function is to try and help with any problems that may arise within your communities. We are here to help with any struggles, joys and celebrations throughout our large family. We reached out to two different existing communities this past year to help them with different needs. Our Regional Coordinators have been very helpful in making my job easier and I'd like to thank them for their hard work and servanthood to our Lord.

The NLS Website describes the role of the VPO as "a responsible servant of Jesus Christ who wishes to glorify God by coordinating outreach activities for development of new Via De Cristo (VdC) communities and assists existing VdC communities fulfill their call. I haven't had the opportunity to build a new community yet but I pray that I have been of some help to our existing communities by supporting the Regional Coordinators (RCs) who directly support you. My plan for next year is to have continued communication and address any needs or concerns of the individual secretariats and regions.

Please feel free to call me with any problems or concerns. Let's all work together as one big family.

God loves you and so do I,

Tom Kirk

VPO
